

SERVICE PRODUCT BRIEF SUPPLIER RECOVERY AND DEVELOPMENT

Verify's **Supplier Recovery and Development** services involve qualified and experienced Verify resources taking action to bring either an underperforming supplier back to the expected operational performance rate or maintain a critical supplier at a required performance level.

The supplier's current state of operations is initially evaluated to determine the necessary actions to rectify deficiencies and problematic situations. Plans are then established and measures taken to develop the supplier's capacity and capability in order to achieve customer satisfaction.

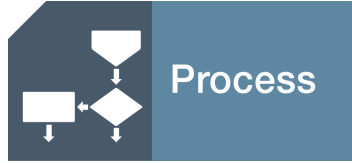

SUPPLIER RECOVERY AND DEVELOPMENT

Based on customer requirements, Supplier Recovery and Development services draw upon the following core capabilities.

Experienced high caliber resources are carefully selected to plan, execute, and accurately report on progress and completion

Industry proven standard work packages including best practice processes, checklists, and forms

Online Supplier Performance Platform provides real-time status and performance analytics
